What we spend and how we spend it

The practice receives payment from NHS Wales in accordance with General Medical Services for the provision of medical services to our patients.

Main expenses include:

- Maintenance of the premises and equipment
- Utilities
- Administrative costs including the wages of our staff and training
- IT support and maintenance

- Communications Support, maintenance and running costs
- Infrastructure investment such as clinical equipment
- The cost of our premises
- The cost of drugs that we dispense and those we personally administer to our patients
- Costs relating to operating dispensaries – consumables

Further information is available on request from the Practice Manager although there may be circumstances where details cannot be released as it is confidential or commercial information.

What our priorities are and how we are doing

We work with NHS Wales on the development of the NHS and the continued provision of general medical services. In addition to this we provide Enhanced Services including minor surgery, wound care, anti-coagulation monitoring. We also undertake Quality Improvement Projects such as Access to services, chronic kidney disease, hypertension and continuity of care. We work closely with other practices on Anglesey as part of Cluster services.

How we make decisions

We hold monthly meetings for the practice management team to discuss policy decisions

Whole team meetings are held 6 monthly

Our policies and procedures cover the following areas

- Data Protection
- Privacy
- Health & Safety
- Dispensing
- HR – for managing our staff
- Complaints

Lists and Registers for data protection and health and safety purposes

Registers/lists are held where required in relation to the above policies
